Subject: [cte\_coordinators] University of Alaska scholarship opportunity  
To: cte\_coordinators <cte\_coordinators@list.state.ak.us>

The University of Alaska is making it happen for Alaska's future teachers! For the second year, the university is offering its President's Teach for Alaska Scholarship, as well as introducing significantly reduced tuition for select occupational endorsement and certificate programs.

The second annual Teach for Alaska Presidential Scholarship application period is open now!

The scholarship is open to all incoming undergrads enrolled to attend any of UA's campuses. It is a 4-year academic scholarship, offering \$12,000 or \$1,500 per semester! Would you consider adding this to the scholarship section on the School Counseling page of the Department of Education website?

Would you also consider posting about this opportunity on your social media channels? I have provided suggested copy and an image below that you are free to use.

Alaska students should be excited about this opportunity. Entries must be submitted by May 1 - please let me know if you have any questions. For more information, including application criteria, visit <http://alaska.edu/learntoteach/>.

For social media: Great news! If you plan to pursue a career in teaching at the University of Alaska, you could earn a \$12,000 academic scholarship! Learn more about the President's Teach for Alaska Scholarship and apply before May 1! <http://alaska.edu/learntoteach/>
